INDEX TO FIRE JOURNAL

VOLUME 59, Numbers 1-6

A consolidation of the indexes of the six issues of FIRE JOURNAL published in 1965

USING THE INDEX

Each page reference consists of two numbers separated by a colon. The number preceding the colon identifies the issue (1: January; 2: March; 3: May; 4: July; 5: September; 6: November). The page number in the issue follows the colon.

EXAMPLE — 4:33 refers to the July 1965 issue, page 33.

INDEX TO FIRE JOURNAL

VOLUME 62, Numbers 1-6

A consolidation of the indexes of the six issues of FIRE JOURNAL published in 1968

USING THE INDEX

Each page reference consists of two numbers separated by a colon. The number preceding the colon identifies the issue (1: January; 2: March; 3: May; 4: July; 5: September; 6: November). The page number in the issue follows the colon.

EXAMPLE — 4:33 refers to the July issue, page 33.

INDEX TO FIRE JOURNAL

VOLUME 63, Numbers 1-6

A consolidation of the indexes of the six issues of FIRE JOURNAL published in 1969

USING THE INDEX

Each page reference consists of two numbers separated by a colon. The number preceding the colon identifies the issue (1: January; 2: March; 3: May; 4: July; 5: September; 6: November). The page number in the issue follows the colon.

EXAMPLE — 4:33 refers to the July issue, page 33.

INDEX
TO
FIRE JOURNAL

VOLUME 65, Numbers 1-6

A consolidation of the indexes of the six issues of FIRE JOURNAL published in 1971

USING THE INDEX

Each page reference consists of two numbers separated by a colon. The number preceding the colon identifies the issue (1: January; 2: March; 3: May; 4: July; 5: September; 6: November). The page number in the issue follows the colon.

EXAMPLE — 4:33 refers to the July issue, page 33.
